

Silverdale Family,

We will **not** be bringing back the Ascend platform. Yay!

To continue to strengthen our FACTS student information database capabilities, we have added one more of their platforms to make parents' lives easier and more efficient. Instead of paper forms for your child's health records, we will be integrating Magnus Health Student Medical Records (SMR), which is part of the FACTS family. Benefits include:

- Physicals and all health documentation will be in one place!
- Less paperwork for parents to complete and return each year
- More accurate information that is accessible to parents, our nurse, coaches, trainers, etc.
- Ability to send direct medical information to first responders if needed

Please reserve 20-30 minutes per child, depending on particular circumstances, for the initial account setup. Data is securely stored, so going forward you will simply provide updates to records as needed. In addition, step-by-step login instructions can be found on the [Parent Portal](#). To access your Magnus Health SMR Account:

1. Login to [FACTS](#)
2. Select: Student > Medical > Magnus Health Login
3. Create credentials
4. Complete forms for your child(ren)
